BERLIN, Nov. 14.—The Nationalist press discovers in the proposals of Secretary Hughes only "American egoism" and "lies, hypocrisy and dishonesty." The newspapers declare that Germany cannot "expect the slightest relief from French cruelty, carried on with a revolver on the hip along the Rhine."

Some newspapers express the belief that the delegates greeted the proposals with approval in order to gain time "to put something over on each other."

The liberal press is silent, but the radical Rote Fahne (Red Fag) says it is evident that the billion pounds of wardent germany, Japan and Siberia—will be the sacrificial offerings to the commercial imperialism of America and England.

other considerations. One is deseribed as the possible advance
of science, which would make it
easy for an advarsary to transfer
his fighting force across the ease

The other is the stringth of foreign naval bases in the waters near

Another technical matter cocupying the experts is the question

CRIES OF THE GIRL.

"I am dying. He hurt me," cried Miss Rappe, according to testimony of Miss Prevost and Alice Blake, who said the girl was laying on a bed fully clothed, but tearing at her garments as she moaned and tossed. Arbuckle told her to shut up or he would throw her out of the window, they said, and used ice in an attempt to restore her fully to consciousness.

Miss Rappe was taken to another room in the hotel and next day removed to a hospital, where she remained until her death. Hospital nurses testified at the inquest that she accused Arbuckle of having injured her, but this testimony was not introduced at the Police Court hearing.

Miss Rappe's death September 5. from a ruptured bladder, was the outcome of a drinking party she attended in Arbuckle's suite at the Hotel St. Francis the afternoon of September 5. On this occasion, according to testimony in the police court hearing, Arbuckle and Loweil Sherman, another moving-picture actor, were clothed in dressing towns and palamas, or sthick underwear, while Mrs. Bambins Delmont, who swore to the murder complaint againset the comedian, also donned palamas during the gayety.

When Miss Rappe retired from about an hour later, two of the reom, while the restivities were in progress, according to the testimony, Arbuckle followed her and about an hour later, two of the women, Mrs. Delmont and Zeh Prevost, found her in distress in an adjoining room, the door of which was opened by Arbuckle in response to their knocks.

PRELIMINARY HEARING.

Nothing was shown at the preliminary hearing, according to
Judge Lazarus, to connect Arbuckle with the charge of murder,
which was brought under the California statute providing that a
life taken in rape or attempted
cape is murder. Judge Lazarus
declared, however, that Arbuckle's
conduct warranted holding him for
manslaughter, as he might have
committed battery.

A grand jury indictment for
manslaughter also was returned
against Arbuckle, although Dist.
Atty, Mathew A. Brady chose to
try the defendant on the Police
Court holding. The Coronor's jury
charged him with manslaughter.

Arbuckle's arrest later by prohibition officials on a charge of
illegal possession of liquor was another incident in the case resulting
from an investigation which the
prohibition authorities laid before
the Federal grand jury. The liquor
at the party was brought from
Canada by a bootleg ring which
operated, on a large scale, officials
said.

Gavin McNab, a preminent San
Francisco attorney, is chief of
counsel for Arbuckle. He was retained by motion-picture interests
to handle the defense.

To each of five nephews he gave one of his swords with 'an injunction not to unsheath them for the purpose of shedding blood except it be for self-defense or in defense of their country and its rights, and in the latter case to keep them unsheathed and prefer falling with them in their hands to the relinquishment thereof.' There is no selection of words wherewith more eloquently to express the full duty and obligation of a good citizen to his country. Let us be thankful that the spirit of that injunction has been borne in upon the nation he founded and animates it even to this day. '

"As a charter of good citizenship and patriotic purposes this last will and testament has been an inspiration many times to me, I commend its thoughtful reading to whoever would emulate his example. Indeed, as we are gathered here, representatives of a grateful and reverent nation, to signslite the consummation of one more public beneficence inspired by him, I can think of nothing more appropriate than to urge the study of the farewell address and the last will and testament as complements of each other. Neither of them can be fully appreciated without the other. The farewell address was the final adjuration of the soldier, the statesman, the founder. The will and testament was the last word of the Christian citizen, the loving husband, the devoted kinsman—and the provident man of business.

Scrappy Sacramento Pilot May Be the Next Manager of Bill Klepper's Baseball Club.

[EXCLUSIVE DISPATCH.]

PORTLAND (Or.) Nov. 14.—Bill Rodgers, the fighting pilot of the Sacramento Senators, may manage the Portland Beavers next season. "How would Portland like Rodgers as manager of the club?" was one of the first questions asked by President Klepper on his return from the Coast League meeting at Los Angeles. He seemed quite serious about it, too.

Evidently, semething has here that first the first questions are the first questions.

It came after the referee had repeatedly warned Pesek against gouging his thumbs in his opponent's eyes. Pezek, apparently unmindful of the referee's warning, kept up his tactics and the second foul was called twenty minutes later.

Chairman O'Rourke then notified the men they would have to continue their match. Pesek, however, did not change his style and the referee awarded the match

For Reliability

No other thing counts so much with men buying cars today. Of course, they are alive to the appeal of low cost and economical maintenance. But not at the sacrifice of quality.

With nearly 60,000 owners giving a solid yerdict for Essex reliability, it is not surprising that you perhaps also know it best for its enduring abilities.

But do not overlook its other striking appeals. It is because at its low price Essex gives qualities obtainable elsewhere only in far costlier cars that it has won such an important forward position among the sales leaders in so brief a time.

Workmen, not the one who forward passed Ohio to conference honors last year, but an older brother who flanked for that eleven, is the man who has owned full power to carry out the Ohio State plan of attack and it is said officially that he's the peer of all quarterback predecessors for ability to remember the intricate details of the general strategic plan, follow it so far as possible and then whip out a substitute one when the foe has made it plain that the original is not worth clinging to.

Back in his school days sround Huntington, W. Va., Noel Workman was nicknamed "Dopey." It wasn't due to any fondness for a soda fountain's product, but was really a merited monicker because the boy was always thinking and figuring out things. To his coaches to his team comrades and to his other college intimates, he's "Dopey" still and always will ba. It's his consistency at correct mentality processes that has endeared him to the young men who are bearing the football burden for Ohlo State. In Workman there is such implicit confidence that no player ever questions his judgment and he carries out to a remarkable degree the strategical preachments heard in conferences with Capt. Myers, Wiper and Cott, the latter two being reserve quarterbacks, on the listeners' seats along with him. Tension was high here in Colum.

GOLDEN AGE OF KINGS

FLASHES ON SCREEN.

The golden age of kings and kingly folly; the era when monarchs were men and queens struggled for the loyalty of their sovereign swains; the time of the lance and the tankard; the gibbet and the jester; in a word the period of magnificent royal power and splendid royal caprice has been revived. At least—it has been recalled in such a way that you can imagine yourself an immediate on-looker in "Deception," the story of Henry VIII and Anne Boleyn, which is showing this week at Tally's Theater.

Perhaps, this film may be defamatory to English prestige perhaps it may make a celebrated king a reprobate; perhaps it may indulge in an overardent defense of a fair usurper's character, but it is fascinating and to a degree that pictures are seldom fascinating. Because it does what the screen can most splendidly and most successfully accomplish—make an audience see a chapter of history.

In a way, this picture is much greater than "Passion." Its central male character is a more interesting personage by far than Louis XV, and, furthermore, all its peop's have a greater historical prominence than the shoppiri who became the poyal mistress.

FORMAL PEACE WITH GERMANY.

Proclamation by President Ends State of War.

Austria and Hungary Still Asoait Action.

Will Mean Repeal of Certain War-Time Laws.

WASHINGTON, Nov. 14 .- Peac

will return the United States to a peace status.

The second step probably will be the promulgation of a proclamation declaring the war with Austria to have ended and the third, issuance have ended and the third, issuance of a similar proclamation as to Hungary. The proclamation dealing with Austria is expected to be signed by the President and issued through the State Department within a few days, as ratifications of the treaty between the United States and Austria were exchanged at Vienna last Tuesday. Ratifications between the United States and Hungary are expected to be exchanged soon.

WILL END WAR LAWS.

Until the third and final step.

RATTLERS ARE NUMEROUS.

San Pedro St. Car

Until the third and final step is taken the purposes of the formal proclamations will not be achieved in the opinion of officials. These purposes are stated to be to end without doubt certain war laws unaffected by the Congressional resolution of repeal approved March 3. Notable among these laws are sections of the Espionage Act, the Liberty Bond Act and Trading With the Enemy Act. Portions of the last-named statute are preserved, however, through the treaty. About the same time as the news of the reopening of the liquor traffic across the interfational line have come many reports of rattle-snakes on the plains and in the hills, the reptiles declared more numerous than known for years and to be very active, following their shedding of skins and before their period of winter hibernation.

Just when Germany will resume her old diplomatic status at Washington is not known, but it is expected Baron Edmund Thermunn, formet Counselor of the German Legation at Budapest, will arrive shortly to arrange for a technical installation of a German embassy.

CHICAGO, Nov. 14.—Defying their chiefs, who advised them that with thousands of men seeking work and the public bitterly opposed to strikes this was no time to walk out, 6000 teamsters, admittedly the "hardest boiled" of all the union crafts, went on strike this morning. The independents, who, two weeks ago accepted the wage cut of \$3 a week, repudiated their agreement and joined the brotherhood, thus making the tie-up almost complete.

As usual in strikes where the teamsters are involved, violence began at the outset. Two working drivers were dragged from their trucks and beaten almost to death, and there were numerous cases of assault and destruction of property. Chief of Police Fitzmorris hurriedly returned to the city from West Baden, Ill, He was informed that a preliminary meeting, held to make some sort of compromise, had failed, and that the chiefs of of the striking teamsters had admitted that the entire movement had slipped from their control. He will make an effort to bring the warring teamsters and employers together, but failing that, will adopt stern measures to preserve order.

\$275,000 Serial 6% Bonds Priced to Yield 7.25%

When you invest in this security, you are protected by one of the best Water Improvement District laws ever devised. The power of a legally organized Texas Irrigation District to collect taxes for the payment of interest and principal on its bonds is absolute. These bonds constitute a tax lien against all lands in the district, ranking ahead of all mortgages, until the last bond is paid.

The serial retirement of the bonds, and the increasing value of the land, combine to increase the large margin of sa fety back of this issue.

Climate, soil and other factors are extremely favorable to the profitable production of diversified, staple crops. The debt per acre—only \$28.02—is considered unusually low.

You Might Exchange Your Securities With Profit

Today's changing conditions, with rising bond prices and consequent decreases in interest rates, affect your present investment holdings and make it advisable in many instances to ex change for different securities.

for example, it might be to Jyour advantage to change a low-interest bond for one returning a higher yield-now while the present opportunity to get safe, high-yield securities continues.

Bring us a list of your present holdings, and let us analyze your securities for you. We may be able to recommend some exchanges which will be profitable to you.

But no beginning on materially reducing the size of armies can be and until Germany has entirely executed all military clauses in the Versailles Treaty.

Gen. Edmond Bust, Chief of Staff of the French army, who is here with Premier Briand, has just completed the draft of a plan for limiting the size of armies, due consideration being taken for the geographical position of the various powers concerned.

Following is the size of the principal armies today, according to statistics which have been gathered:

proportions in British eyes of an event of tremendous significance. Counter-proposals for an Irish settlement to those made by the Ulster Cabinet last week, were forwarded to the Ulsterites tenight by the British representatives, informing the Ulsterites their afternative proposal was not acceptable.

PREMIER'S DIPLOMACY.

It seems the Premier's diplomacy must be directed to bringing Ulater into a three-cornered agreement. In the meantime the Sinn Fein will await developments.

Ulster's watchword is "no surrender." The crux of the difficulty rests in the Sinn Fein's claim that Ireland must be a governmental unit, as opposed to Ulster's claim that if Ireland is to have a domin-

cered, of which every enlisted man is a potential non-commissioned officer—"feldwebel"—or field officer. This body of 280,000 men could be used to form the skeleton for an army of 5,000,000 troops, it is estimated, especially for operations within the next ten years as the majority of the men mobilized would have seen service in the great war.

It is a Privilege to Help Build this Splendid Hotel!

At least \$1,750,000 more is required before the proposed great Los Angeles Biltmore Hotel is assured. A \$7,000,000 development---a hotel as fine as the finest in America. THIS VITAL PROJECT MUST NOT FAIL for lack of financial co-operation. Think what it means to Los Angeles! Invest YOUR funds in this enterprise and reap double benefits.

The investing public is seldom given an opportunity of permanent investment that will, under the terms of a lease already negotiated, earn not less than seven per cent, and, at the same time, be so helpful in the upbuilding of Los Angeles.

LOS ANGELES BILTMORE HOTEL

A site selected at Fifth and Olive streets, fronting Pershing Square. Believed by best authorities to have greater present market value than figure at which it can be bought—\$1,220,000. Lease negotiated for twenty-five years and at most advantageous terms to owning corporation, with John McE. Bowman, most prominent hotel man on the continent.

It is proposed to form the CENTRAL INVESTMENT CORPORATION—capital \$5,000,000; 50,000 shares; par \$100 per share. At least \$4,000,000 should be raised by the sale of stock, the balance to be cared for by bonds bearing not to exceed 61/2% interest. No promotion; no commissions; no remuneration to officers.

The City Attorneys of Alhambra and Pasadena attacked his viewpoint, and asked that those lips be given the benefit of cheaper rates because they are more than self-supporting, while other lines are admittedly money-losers.

Mr. Sachse stated that in his opinion all lines would have to bear the, burden together, regardless of their status. One of the first test cases on the so-called auto truck overloading on State and county highways was decided yesterday by Justice Holbrook at Ontario, when he ruled against the people of San, Bernardine county and in favor of R. W. McNeely of this city.

The case was one in which Mr. McNeely was charged with having hauled too heavy a load by truck over San Bernardine county roads. He pleaded that he was unable to make his loads harmonize with the different loading requirements of State and county. Mr. McNeeley was represented by Attorney Lou Guernsey. The court held that the San Bernardine county ordinance was in conflict with the State Motor Vehicle Act. The District Attorney of San Bernardine county has served notice that he will appeal the case, Mr. Guernsey states. One of the first test cases on

Through free clinics he brought the death rate among infants less than 1 year old from a ratio of 241 a thousand down to a ratio of seventy-five and for children of the ages, 1 to 14, the ratio changed from 737 to 306. Proper food and clothing and medical care brought about this astonishing result.

Since his arrival in New York on Sepsember 36, Dr. Orbison has been engaged in research work in the neurological department of the University of Pennsylvania.
